* GENERAL NOTES *

- The bearings shown hereon are based on the found monumentation of Morningstar, as shown on the Correction Plat thereof filed for record in Cabinet E, Page 271, Plat Records, Parker County, Texas.
- According to the Flood Insurance Rate Map published by the Federal Emergency Management Agency, Department of Homeland Security, the subject property appears to be located in Zone "A Shaded" (No Base Flood Elevations determined) and Zone "X" (areas determined to be outside the 0.2% annual chance floodplain), as shown on Map No. 48367C0325E; map revised September 26, 2008, for Parker County and incorporated areas. This flood statement does not imply that the property and/or structures located in Zone "A Shaded" or Zone "X" will be free from flooding or flood damage. This flood statement shall not create liability on the part of the Surveyor.
- This plat was prepared without the benefit of a copy of a Commitment for Title Insurance prepared by a Title Company. The easements shown hereon are the only easements known by Spooner & Associates and does not imply that any other easements, covenants, restrictions, or other matters of record do not affect the subject property. No other research was performed by Spooner & Associates, Inc.
- All property corners are monument with a 5/8 inch iron rod with a cap stamped "SPOONER 5922" unless shown otherwise hereon.
- 10' utility easements accompany all rights-of-way created by this plat.
- Selling a portion of this addition by metes and bounds is a violation of City Ordinance and State Law and is subject to fines and withholding of utilities and building permits.
- All distances shown along curves are arc lengths.
- Parkway Improvements such as curb and gutter, pavement tie-in drive approaches, sidewalks and drainage inlets may be required at the building permit issuance via parkway permit.

Water / Wastewater Impact Fees

The City of Fort Worth has an ordinance implementing the assessment and collection of water and wastewater impact fees. The total amount assessed is established on the recordation of this plat application, based upon schedule I of the current impact fee ordinance. The amount to be collected is determined under schedule II then in effect on the date a building permit is issued, or the connection date to the municipal water and/or wastewater system.

Building Permits

No building permits shall be issued for any lot in this Subdivision until an appropriate CFA or other acceptable provisions are made for the construction of any applicable water, sewer, storm drain, street lights, sidewalks or paving improvements; and approval is first obtained from the City of Fort Worth.

Utility Easements

Any public utility, including the City of Fort Worth, shall have the right to move and keep moved all or part of any building, fence, tree, shrub, other growth or improvement which in any way endangers or interferes with the construction, maintenance, or efficiency of its respective systems on any of the easements shown on the plat; and they shall have the right at all times to ingress and egress upon said easements for the purpose of construction, reconstruction, inspection, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity at any time of procuring the permission of anyone.

Site Drainage Study

A site drainage study, showing conformance with the approved roadway drainage plan, may be required before any building permit will be issued on this site (a grading plan in some instances may be adequate.) If the site does not conform then a drainage study may be required along with a CFA for any required drainage improvements and the current owner shall submit a letter to the Department of Transportation and Public Works stating awareness that a Site Drainage Study will be required before any permit is issued. The current owner will inform each buyer same.

Sidewalks

Sidewalks are required adjacent to both sides of all public and private streets, in conformance with the Sidewalk Policy per "City Development Design Standards".

Private Common Areas and Facilities

The City of Fort Worth shall not be held responsible for the construction, maintenance or operation of any lots containing private common areas or facilities identified as such on this plat. Said areas shall include, but not be limited to: private streets, emergency access easements and gated security entrances; recreation areas, landscaped areas and open spaces; water and wastewater distribution systems and treatment facilities; and recreation/clubhouse/exercise buildings and facilities.

The land owners and subsequent owners of the lots and parcels in this subdivision, acting jointly and severally as a land owners association, shall be responsible for such construction, reconstruction, maintenance and operation of the subdivision's private common areas and facilities, and shall agree to indemnify and hold harmless the City of Fort Worth, Texas, from all claims, damages and losses arising out of, or resulting from the performance of the obligations of said owners association, as set forth herein.

Flood Plain/Drainage-Way: Maintenance

The existing creek, stream, river or drainage channel traversing along or across portions of this addition will remain unobstructed at all time and will be maintained by the individual lot owners whose lots are traversed by, or adjacent to, the drainage-ways. The City of Fort Worth will not be responsible for the maintenance, erosion control, and/or operation of said drainage-ways. Property owners shall keep the adjacent drainage ways traversing their property clean and free of debris, silt or other substances which would result in unsanitary conditions, and the City shall have the right of entry for the purpose of inspecting the maintenance work by the property owners. The drainage-ways are occasionally subject to storm water overflow and/or bank erosion that cannot be defined. The City of Fort Worth shall not be liable for any damages resulting from the occurrence of those phenomena, nor the failure of any structure(s) within the drainage-ways. The drainage-way crossing each lot is contained within the floodplain easement line as shown on the plat.

Construction Prohibited Over Easements

No permanent buildings or structures shall be constructed over any existing or platted water, sanitary sewer drainage, gas electric, cable or other utility easement of any type.

Pressure Reducing Valves (P.R.V.)

Private P.R.V.'s will be required; water pressure exceeds 80 P.S.I.

Water/Sewer Extensions:

No water/sewer inside or back of lots per Subdivision Ordinance.
