

Utility Easements

Any public utility, including the City of Fort Worth, shall have the right to move and keep moved all or part of any building, fence, tree, shrub, other growth or improvement which in any way endangers or interferes with the construction, maintenance, or efficiency of its respective systems on any of the easements shown on the plat; and they shall have the right at all times to ingress and egress upon said easements for the purpose of construction, reconstruction, inspection, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity at any time of procuring the permission of anyone.

Site Drainage Study

A site drainage study, showing conformance with the approved roadway drainage plan, may be required before any building permit will be issued on this site (a grading plan in some instances may be adequate.) If the site does not conform, then a drainage study may be required along with a CFA for any required drainage improvements and the current owner shall submit a letter to the Department of Transportation and Public Works stating awareness that a Site Drainage Study will be required before any permit is issued. The current owner will inform each buyer of the same.

Sidewalks

Sidewalks are required adjacent to both sides of all public and private streets, in conformance with the Sidewalk Policy per "City Development Design Standards".

Construction Prohibited Over Easements

No permanent structures shall be constructed over any existing or platted water, sanitary sewer, drainage, gas, electric, or other utility easement of any type.

Private Maintenance

The City of Fort Worth shall not be responsible for maintenance of private streets, drives, emergency access easements, public access easements, public pedestrian access easements, recreation areas, open spaces and drainage facilities, and said owners agree to indemnify and save harmless the City of Fort Worth, Texas, from claims, damages and losses arising out of or from performance of the obligations of said owners set forth in this paragraph.

PRIVATE WATER AND SEWER

Water to be served by private well water. Sewer to be served by private individual disposal system. Parkway improvements such as curb and gutter, pavement, tie-in drive approaches, sidewalks and drainage inlets may be required at the building permit issuance via parkway permit."

Development in unincorporated Tarrant County shall be subject to applicable municipal regulations, the current Tarrant County Subdivision and Land Use Regulations and the Tarrant County Fire Code.

Tarrant County permits required prior to development within this subdivision, as applicable, include, but are not limited to, driveway access to public roads, development within a designated floodplain, salvage yards, stormwater mitigation, and on-site sewage systems.

Tarrant County shall not be responsible for private common areas, including but not limited to, private streets, emergency access easements and gated security entrances, recreation areas, landscaped areas and open spaces.

All drainage easements shall be kept clear of fences, buildings, foundations, plantings and other obstructions to the operation and maintenance of the drainage facility.

The siting and construction of water wells shall be subject to the regulations of the Northern Trinity Groundwater Conservation District.

Tarrant County does not enforce subdivision deed restrictions.

Land owners and subsequent owners of lots or parcels within this subdivision are encouraged to contact Tarrant County's Transportation Services Department prior to conducting any development activities.
