Payments may also be submitted by debit or credit cards.

AGRICULTURAL 1-D-1 OPEN SPACE AND WILDLIFE MANAGEMENT

Because of Senate Bill 771, there is a temporary recession of agricultural use during the drought. Qualified open-space land does not become ineligible for the special appraisal when a drought is declared by the Governor. The Governor has declared the necessity to cease agricultural use for longer than the normal time period. We will work with our farmers and ranchers during the drought.

The PROPERTY VALUE STUDY

The property value study is conducted by the State Comptroller's Office to estimate the taxable property value in each school district and to measure the performance of appraisal districts. If the appraisal district is within a 5% margin of error, the State Comptroller will certify the local value to the Commissioner of Education. The findings of the study are used in the school funding formula for state aid.

Floyd CAD has received local value for all school districts in the district.
