2027 Tax Rates for Motor Vehicle Dealer's Special Inventory

"Unit Property Tax Factor" means a number equal to one-twelfth of the prior year aggregate tax rate at the location where a dealer's motor vehicle inventory is located on January 1 of the current year. To compute, multiply the sales price by the unit property tax factor. Contact either the county tax assessor-collector or county appraisal district for the current unit property tax factor. The unit property tax factor is calculated by dividing the prior year's aggregate tax rate by 12. If the aggregate tax rate is expressed in dollars per $100 of valuation, divide by $100 and then divide by 12. It represents one-twelfth of the preceding year's aggregate tax rate at the location. For fleet, dealer and subsequent sales that are not included in the motor vehicle inventory, the unit property tax is $-0-. If no unit property tax is assigned, state the reason.

Hopkins County, Hospital District, City of Sulphur Springs, Sulphur Springs I.S.D.

Tax Rate is $ .00151952 (EX: $20,000 sales price X .00151952 =$30.39)
